

The Netpreneur News Hidden Freebies Guide

(C) 2005 Stuart Reid, www.NetpreneurNow.com

Thousands Of Dollars Of Great Marketing Products At No Cost!

Hi!

So what is this all about?

Simple. I'm going to give the URL's to *tons* of great products that will NOT cost you a single cent. This is totally legitimate, but many marketers are not aware these resources exist.

This file will be updated as and when it's necessary. Feel free to give this away to your own visitors and subscribers - you have been granted full Giveaway / Master Resell Rights!

All I ask is the links and copyright message at the top remain unchanged.

For HTML, TEXT and PDF Versions or to register your e-mail on the update list please visit this URL:

Welcome to the secret source to literally hundreds of downloads worth thousands of dollars! Throughout the sites listed below you can instantly download all the marketing tools and ebooks you could ever need - most with resell rights.

What do you do with these downloads? It's tempting to just start downloading like crazy - then you'll find yourself with a harddrive full of files that you never use. This is the wrong way to go about it. Have a target in mind before you download. Most of these sites are here to stay, so there's no need to waste bandwidth and download just for the sake of it.

You can download files for own use, download to resell, create your own bundles/sites, look for bonuses to include with your own offers, and much more. Surprisingly many of the books and tools you'll find as bonuses or in membership sites will be sold in other places. Not everyone is aware of these resources, don't feel guilty about selling something you had for free.

I've often sold packages that I've sourced for free. It's why Marketers like myself are often not willing to reveal these "secret" sources, since it will undoubtedly mean less sales for themselves. I won't do this often - consider this guide a lapse of judgement on my part!

Marketers offer free gifts and membership sites in an effort to build their mailing lists and to earn some money on `back end` offers. Respect the work these people have put in to their sites and collections. Just because something is free does not mean it's sub-standard.

Please keep one thing in mind: Although some of these sites may show you a "one time offer" when you first join or visit you DO NOT have to purchase this to get to the freebies! Clicking "No" (or it's equivalent) will usually do the trick.

But don't disregard these one-time offers out of hand. Take a moment to read them, you'll be pleasantly surprised at what's on offer.

Enjoy!

Section A: Hidden Bonuses

1. Free Copy of "Blog And Ping Tutorial"

 [Ewen Chia's Underground Interviews](#)

You can download this guide from Ewen Chia's new "Underground Interviews" site as a bonus. Ewen's site also provides brandable interviews of top marketers you can use.

This Blog And Ping Tutorial is part of the "Private Label" firesale promoted recently and is still being sold for up to \$97 at many sites!

2. Free Copies of "30 Days To Marketing Success" 1 and 2

 [Mike Filsaime's ListDotCom](#)

These two books by the infamous Joe Kumar are available for free as bonuses in Mike Filsaime's ListDotCom Site. You can also get a Flyin Ad creator and a Viral Report creator.

The 30 Days To Marketing Success books are interviews with many Marketers who show what they would do to build their businesses in 30 Days if they were to start from scratch. Joe Kumar found himself in big trouble with these, after ripping off his resale partners, which is why Mike Filsaime took the decision to give them away.

3. Free Copy of "The Total Resell Package" Compilation.

[Firesale Secrets](#)

This package, from Mike Filsaime (again!) is being sold widely at around \$47 - and it's well worth that. It contains tons of packages and tools. At "Firesale Secrets" (itself a free product) you can get the Total Resell Package as a free bonus.

You'll also get: Public Domain Mastermind, and Reply Email Automator as part of the "Firesale Starter Pack"...
